RESCUE 1 YOUTH CLUB
MENTORING & COACHING

EMPOWERMENT PROGRAMS FOR MIDDLE SCHOOL

Building Confidence, Character & Curiosity, One Step at a Time

Wellness, Confidence & Development

Health & Wellness

Guided classes, healthy games, and physical activities help students develop habits that support fitness, energy, and overall well-being.

Nutrition & Healthy Cooking

Practical cooking classes introduce nutrition basics, safe food preparation, and healthier meal choices.

Confidence Building

The public speaking module develops communication, customer service, and presentation abilities while strengthening self-confidence.

Financial Literacy

Students learn how to save, budget, manage money, understand income, and gain basic knowledge of taxes and responsible spending.

STEM, Robotics & AI

Hands-on projects in robotics, technology, and artificial intelligence develop problem-solving and design-thinking skills.

RESCUE 1

YOUTH CLUB

Teamwork, Career & Exploration

Team Building

Specific group projects require students to research, plan, and build together, strengthening cooperation and teamwork.

Business & Entrepreneurship Basics

Students choose a business idea, identify a product or service, and turn it into a practical project.

Early Trade & Career Exploration

Introductory technical tasks expose students to tools, safety practices, skilled trades, and future career pathways.

Cosmetology & Hairdressing

Guided practical classes build foundational skills in hair care, styling, beauty treatments, and personal grooming.

Horticulture & Landscaping

Class projects introduce plant care, soil preparation, landscaping design, and sustainable gardening.
